26 x Half Hour Pre-School Series

What's Your News? is a ground-breaking series that brings 4 to 6 year old children THEIR news. "Our top story today: Kallon Laudat can kick a ball really far!" "This just in – Maya Myrdal can play the piano with both hands!". This is news children can relate to – because it's about the kinds of things that happen to them.

And the reporters are a crew of engaging and entertaining Ants!

Every 22 Minute episode follows a major breaking news story and presents one other feature. There are interviews with child experts, special reports, traffic updates and the weather. What's Your News? focuses on children's experiences and interests, showing them a world filled with people whose news is their news. It celebrates and honours a child's experience of just being a child.

What's Your News? was produced using a technologically innovative combination of live action, motion capture, CG and performed animation by the UK's TT Animation and Canada's Lenz Entertainment. The series can also be formatted to include local live-action content and provides numerous opportunities for online outreach and viewer participation.
